Release 20140218

Feb. 18, 2014

For Immediate Release

Exercise Central Accord to Commence in March

Douala, Cameroon – The Cameroon Armed Forces, U.S. Army Africa, and the Partner Nations of The Multinational Force of Central Africa (FOMAC) will conduct Exercise Central Accord 14 (CA14) March 11-22, 2014 in Cameroon.

Central Accord is one of four regional U.S. Africa Command directed exercises designed to bring together U.S. Army personnel with counterparts from militaries throughout Africa to promote working relations between participating forces.

Approximately 1,400 military personnel from the member nations of the military forces of central Africa, Nigeria, the Netherlands, the U.S., and several other countries will participate in this exercise. Central Accord 14 consists of classroom instruction followed by a rigorous combined-joint-aerial-resupply exercise and medical resupply and evacuation exercise.

Central Accord 14 will enhance the capacity and capability of the participating countries' defense forces to conduct peacekeeping and humanitarian support operations, and will increase interoperability between FOMAC, the U.S., and other partner nations. Central Accord 14 will enhance the readiness of the participating countries' mission command, logistical, and medical capabilities.

Once the exercise is complete, U.S. participants will return to their home station.
