Release 20141027

Oct 27, 2014

For Immediate Release

CASERMA EDERLE, Vicenza –The health of the force and our families is the number one priority of those returning from Operation United Assistance in West Africa. All personnel are medically screened prior to their departure from Liberia, and upon arrival here in Vicenza. A 21-day control monitoring protocol will be conducted upon return to Vicenza, Italy, in order to monitor the health of service-members and to identify potential risks.

We continue to address these monitoring precautions for personnel returning from Operation United Assistance. U.S. Army Africa is executing this controlled monitoring at Caserma Del Din, and is coordinating its redeployment and reintegration procedures with local, regional, and national Italian public officials. We are confident that these procedures provide the best means of protecting our Soldiers, their families, and our community.

For more information please contact USARAF PAO at email usarmy.vicenza.usaraf.mbx.usaraf-pao@mail.mil or call +39-0444-71-7011.
